

Most Reverend Charles V. Grahmann, DD
Bishop Emeritus of Dallas

June 13, 2011

To Whom It May Concern:

As the Bishop Emeritus for Dallas, the Natural Family Planning Center was founded during my tenure. This was a greatly needed service in the Diocese of Dallas and promotes and implements a critical plank of Catholic teaching. We believe in the sacredness of marriage, and we believe that couples should be true to the natural law and not artificially impede God's will or require women to risk the health issues associated with many forms of artificial birth control.

Natural family planning is a completely effective and safe practice for managing family planning. It is also cost free which is so important for poorer families. As I was when we started this program, I remain wholly committed to this program for all couples and sincerely support this grant from the Kennedy Foundation for the Natural Family Planning Center of Dallas, Inc. Thank you very much for your consideration.

Sincerely in Christ,

A handwritten signature in black ink, appearing to read "Charles V. Grahmann".

Most Reverend Charles V. Grahmann, D.D.
Bishop Emeritus of Dallas
